U. S. TANKS HELP TO STEVE ROMMEL'S DRIVE

British Locked In Heavy Battle With Armored Columns

By ROGER D. GREENE
Associated Press War Editor

U. S. army tanks fighting alongside the British helped clear the path of Field Marshal Erwin Rommel's new three-day offensive in western Egypt today while American fliers huddled through one of the worst dust storms of the war to blast Axis supply depots and break up German dive-bomber formations over the desert battlefield.

A bulletin from British headquarters said British forces were locked heavily in battle with Axis armored columns all day yesterday in the southern sector of the narrow front.

U. S. army planes engaged in extensive operations over the entire area, the communique said.

A censored dispatch from Edvard Kennedy, Associated Press correspondent at the battlefield, said American tanks in "greater number than ever before" were supporting Gen. Sir Harold Alexander's British imperial armies.

"In the southern sector on Sept. 1, our forces including armor and artillery fought throughout the day with the enemy's armored forces in the area between El Meimiat and the Ruweisat Bridge," the British command said. "On the northern flank, British forces made their own sally on Monday night and in a successful raid captured a batch of German prisoners."

The Italian high command asserted that 51 Allied planes had been shot down in the two days of aerial fighting and that four others crashed after hits by Italian anti-aircraft fire.

Front-line dispatches said Rommel's armored spearheads had split into two columns after advancing light miles through British minefields at the southern end of the 5-mile corridor between El Alamein, on the Mediterranean coast, and the desolate Quattara depression.

The main Nazi tank column turned north, it was reported, while a smaller column branched off to the south.

Latest advices said General Alexander was holding back his main tank force, presumably to guard against a possible sally by the enemy's armored vanguards. The 600-tank axis army probed for a "soft spot" which might open a road to the Nile.

Medium bombers of the U. S. 24th bombardment group and heavy bombers of the 98th bombardment group attacked Axis rear positions and vital supply lines, and planes of the 57th fighter group were in the thick of the fight over the desert.

Raiders Visit East Prussia

Berlin (From German Broadcasts), Sept. 2.—(P)—Russian planes, raided East Prussia and occupied Poland last night, starting several fires in Warsaw, the German high command reported today.

The British air force struck simultaneously in western Germany where the Nazi communique said several places in the Palatinate area of Bavaria sustained numerous civilian casualties.

Private homes were said to have suffered particularly at Saarbrücken. The British said nearby Saarbrücken was the target of RAF raiders Tuesday night.

The high command said two British raiders were shot down. German raiders, it added, made assaults yesterday on a troop camp in the English south coast and last night on factories in the Midlands and northeast England.

The official announcement gave no details of the Russian raids on East Prussia. It said the fires started in Warsaw were for the most part among private quarters.

WAR BULLETINS

London, Sept. 2.—(P)—American troops have arrived in the Belgian Congo, the Belgian government news agency reported today.

Washington, Sept. 2.—(P)—The appointment of a special United States technical mission, composed of industrial engineers, which will go to Brazil to help with the war effort, was announced today by President Roosevelt.

Berlin (From German Broadcasts), Sept. 2.—(P)—DNE said in a dispatch today from Algiers, Spain, that the British were conducting large scale landing maneuvers at Gibraltar, with the land garrison and naval and air forces engaged. It said one bomber engaged in the operations crashed and exploded.

Bern, Switzerland, Sept. 2.—(P)—A dispatch from Budapest said 22 persons, mostly young men and women, were executed by firing squads after sentence by a Croatian court-martial on charges of taking letters, food and medicine to insurgents, of possessing arms or listening to the London radio and spreading anti-Axis reports.

Berlin (From German Broadcasts), Sept. 2.—(P)—The Berlin radio broadcast a report from Sofia, Bulgaria, today that three men, publicly

Nazis Strike Deep into Stalingrad Defenses

LONDON GIVES SECOND A.E.F. FINE WELCOME

Small Detachment of U. S. Soldiers and Marines Cheered as They Paraded the City

FETED AT LUNCHEON

London, Sept. 2.—(P)—More than 100,000 Londoners lined the streets of the west end today to cheer a small detachment of United States soldiers and marines on their first march through the capital since the A. E. F. landed in Britain.

The occasion was an official welcome to them by the Lord Mayor of London at the Guildhall. The marines in their bright blue uniforms and white gloves captured the eyes of the sidewalk crowds.

The band struck up "Over There" as it neared Buckingham Palace, the stirring strains bringing cheers from onlookers, many of them veterans of the last war.

The city of London gave a luncheon, using its famed gold plate for the first time since the crews of the British cruisers Ajax and Achilles were feted on their return from the South Atlantic battle which drove the Nazi pocket battleship Graf Spee to suicide in Montevideo harbor.

Guests included Clement R. Attlee, British deputy prime minister; U. S. Ambassador John G. Winant, Foreign Secretary Anthony Eden; Sir James Grigg, war minister; A. A. Alexander, first lord of the admiralty; Field Marshal Sir John G. Dill and Maj. Gen. John C. H. Lee, commander of supply for U. S. forces in the European theater.

General Lee said that Lieut. Gen. Dwight D. Eisenhower, U. S. commander of European operations, was unable to attend because he was "detained by urgent matters of the greatest importance."

"If Gen. Eisenhower had been able to attend he would have said the forces he commanded over the kingdom but to join his majesty's forces in sustained offensive operations," Gen. Lee said. "We will do our all-out best to win the war together."

"We have come over for the duration and none of us wants to return home until victory shall have crowned our united efforts."

Willkie Is In Cairo On His Way to China

G. O. P. Presidential Candidate in 1940 Carries Letter to Premier Stalin

WILL ALSO VISIT INDIA

Cairo, Sept. 2.—(P)—Wendell L. Willkie, enroute to Russia, India and China, among other places, arrived here by plane today.

Willkie was welcomed at the airport by U. S. Minister to Egypt Alexander Kirk; R. G. Casey, British minister of state for the Middle East; Major Gen. Russell L. Maxwell, commander of U. S. forces in North Africa; representatives of the British service chiefs, and the Brazilian minister.

He wore a blue business suit, the right pocket of which had been torn. On his head was a typical tourist's sun helmet.

He drove away from the airport after telling the Brazilian minister he had enjoyed his stopover at Belém, on the Brazilian hump.

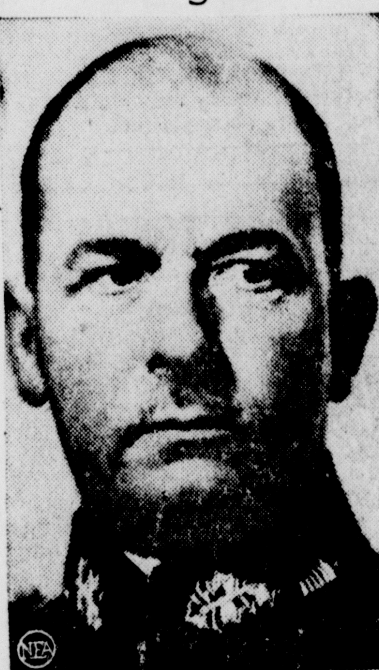

The Republican presidential candidate of 1940 will visit Russia, China, Turkey, Arabia, Palestine, Syria, Iraq and Iran. His trip to China will take him through India.

Willkie's tour was undertaken to perform "certain service for the government" at the request of President Roosevelt. He carries letters from the president to Premier Stalin of Russia as well as to various Americans and officials in the countries he will visit.

President Roosevelt said the Willkie mission was to tell those countries the truth of the American war effort and the unity behind it.

Willkie is expected to return not later than mid-October to participate in the election campaigns.

Rubber Probe Report Ready For President

Special Committee Rounds Out Investigation and Is Ready to Report

HITS EVERY CAR OWNER

Washington, Sept. 2.—(P)—The president's special rubber committee today rounded out four weeks of investigation and authoritative sources said the group would submit its findings and recommendations to Mr. Roosevelt by Labor Day.

A decision on nationwide gasoline rationing as well as on the steps to supply vital rubber needs hinges upon the committee's studies, the president said in appointing the three-man group headed by Bernard M. Baruch, chairman of the War Industries Board in World War I.

The other members are Dr. James B. Conant, president of Harvard University, and Dr. Karl T. Compton, president of Massachusetts Institute of Technology.

From the committee's first informal meeting on a park bench opposite the White House, and through subsequent daily sessions in hotel rooms, the members have given no indication of the trend their studies were taking.

Every car owner in America has a direct concern in their work, but perhaps those awaiting the report with the greatest interest were the western and mid-western senators who sponsored legislation to establish a separate government authority for making synthetic rubber from agricultural and forest products.

SEVEN ARMY PILOTS ARE KILLED IN LOUISIANA

Baton Rouge, La., Sept. 2.—(P)—Seven army airmen from Harding Field were killed last night when a bomber crashed in flames near Angola state prison, Louisiana, penitentiary officials said today.

Details of the accident and names of the dead were withheld.

Oct. Quota to Be Single Men

Harrisburg, Sept. 2.—(P)—Pennsylvania's 422 local draft boards were advised today there are enough single men available without dependents to meet the state's October quota and it will be unnecessary to tap other classifications for that month.

Col. E. F. Evans, acting state selective service head, made the announcement after completing a state-wide survey of available unmarried registrants without dependents.

Col. Evans explained that after all single men without dependents have been called, the local boards "will then proceed with the selection of single men with financial and collateral dependents."

"Next the local boards will use married men with wives only."

At the same time a new reservoir of potential manpower was opened to the local boards through modified regulations which permit in-draft men placed in "F" classification.

DISORDERS IN IRELAND ARE INCREASING

Appearance of U. S. Soldiers on Belfast Streets Touches Off Trouble After Hanging

MISSILES ARE HURLED

Belfast, Northern Ireland, Sept. 2.—(P)—The appearance of two United States soldiers on Belfast streets touched off the first disorders today soon after Thomas J. Williams, 18-year old member of the outlawed Irish Republican army, was hanged in a heavily guarded jail for killing of a policeman.

When police sought to disperse a crowd of about 300 persons, angrily shouting at the Americans, "Why don't you stay at home?" two demonstrators hurled missiles. The police charged with drawn batons and the crowd quickly scattered.

This northern Ireland capital had been declared out of bounds for United States troops and the presence of the two soldiers, neither of whom was harmed, was not immediately explained.

The crowd was singing Irish republican songs when the soldiers first were seen. The Americans were greeted with stiff-armed Nazi-style salutes and jeering comment.

Two of the demonstrators were arrested on charges of rioting and were sentenced to three months imprisonment.

Fearing that the hanging would be the signal for widespread violence, especially after the discovery Sunday outside Belfast of a cache of explosives and arms, police were mobilized and a special force was posted around the prison.

When an official posted the notice of Williams' execution on the prison wall, a crowd of hundreds of women began a procession toward the center of Belfast, singing "God Save Ireland." As they passed police they gave what spectators described as a Nazi salute.

Brakeman Is Killed Under Freight Here

W. J. Stafford, of Erie, Meets Instant Death in Accident in Local Yards

CREW IS EXONERATED

Accidentally knocked under the wheels of cars on a northbound Pennsylvania railroad freight train in the local yards this morning shortly after seven o'clock, W. J. Stafford, 407 East 7th street, Erie, was instantly killed.

According to information given Coroner Ed Lowrey, Mr. Stafford, who had been employed by the company since June 13, was a brakeman on what is known as W-5, westbound freight. It was explained that he had dismounted from the train to uncouple some cars, just as another freight known as Buffalo Extra No. 4296, was passing on the northbound track.

For some reason, unexplained, Stafford is alleged to have been between the westbound main track and the northbound track, instead of being on the south side of his own train.

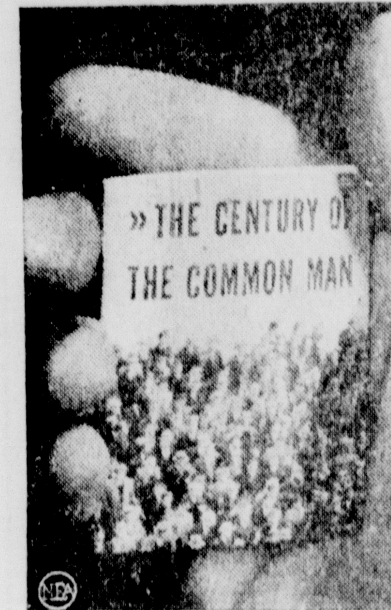

The engine crew of the northbound train, E. A. Clark, engineer, of Oil City, and G. C. Chapin, fireman, of Buffalo, are reported to have stated they observed Mr. Stafford in the yard.

EARTHQUAKE SHOCKS RECORDED AT FORDHAM

New York, Sept. 2.—(P)—Two earthquake shocks of moderate intensity were recorded at 11:27:32 o'clock (EWT) and 11:35:47 o'clock last night by the Fordham University seismograph.

Father Joseph J. Lynch said the center of the disturbance was approximately 400 miles from New York in an unspecified direction.

East To Have Less Oil For Home Heating

Rationing Program May Be Announced Later This Week by WPB Chief

GASOLINE DECLINES

Washington, Sept. 2.—(P)—Fuel oil rationing and probably further curtailment of gasoline consumption today confronted eastern householders and motorists.

Confirming reports that the east would have less oil for heating homes, War Production Chief Donald M. Nelson said yesterday that a rationing program would be announced soon, perhaps later this week, and might affect some mid-western states.

At the same time, a committee formed by the Petroleum Industry War Council to study oil trends suggested that because eastern gasoline consumption in the last two months exceeded expectation the four-gallon-unit value of ration coupons might have to be reduced.

Commenting on the situation at his press conference, President Roosevelt said the curtailment of fuel oil likely would be 25 per cent in some localities.

Nelson observed that the question of which states to include in the rationing area would have to be decided.

TRUCKERS STILL OUT IN FAYETTE COUNTY

Pittsburgh, Sept. 2.—(P)—Strikes of several hundred truckers who deliver coal to approximately 5,000 homes in the city and of several thousand timbermen who furnish posts to the soft coal mines, continued today in Fayette county, threatening to shut down the ovens and many mines.

Federal and state authorities were seeking some solution of the situation in which the War Labor Board already has approved the wage demands of the strikers, but necessary price adjustments, also approved by the office of price administration, have not been made.

Pickets have been keeping all coal trucks off the highways.

Tax Reduction Main Plank in Platforms of Both Parties

BY WILLIAM G. SMOCK

Harrisburg, Sept. 2.—(P)—Both major political parties in Pennsylvania apparently have settled on tax reduction as a major platform plank for the November election campaign.

Republicans, who heard at Philadelphia that U. S. Senator James J. Davis had agreed to join the state executive committee, indicated tax slashes were discussed at a session there of the state platform committee.

David L. Lawrence, state Democratic chairman, has promised voters that "you'll hear a lot about taxes" before the campaign ends and Auditor General F. Clair Ross, Democratic candidate for governor, followed that assertion with the statement:

REDS CLAIM SOVIET LINES ARE HOLDING

Moscow States That There Is No Sign of Weakening That Would Lead to Major Break-Through

REORTS CONFLICTING

BY EDDY GILMORE

Moscow, Sept. 2.—(AP)—The Russians fought hard today for Stalingrad against hordes of German tanks that had struck deep into the defense system and nowhere was there a sign of Soviet weakening which might lead to a major German breakthrough.

On this, the seventh day of the battle for the great industrial city, Marshal Fedor von Bock threw waves of tanks against the city's outer fortifications while his air force continued almost ceaseless bombings of the Red army and the city.

The crucial sector was southwest of the city, Northwest between the Don bridgeheads and the Volga, the situation appeared in hand after a vigorous Russian counter-attack had erased a German wedge forcing the attackers back to their original positions.

(The Germans said they had reached the lower Volga north of Stalingrad, referring possibly to the wedge which the Russians said had been erased.)

Further success in the Russians' major counter-offensive in the rain-soaked Rzhev sector 120 miles from Moscow was claimed officially. The Soviet high command said several more settlements were captured.

Deep in the Caucasus near the Grozny oil fields, the Russians claimed to be holding all their positions and occasionally counter-attacking.

Biddle Scores Dies Inquiry

Washington, Sept. 2.—(P)—Declaring that broadside allegations of disloyalty in the government had not been proved, Attorney General Biddle reported to congress that 36 federal employees had been discharged and 13 otherwise disciplined after investigation of 4,579 complaints charging subversive affiliations.

Biddle criticized the sweeping character of the complaints and said that "the wisdom of assigning investigation agents to such work in war time and with such meager results must be seriously questioned."

He said that it was evident that a large proportion of the complaints were "clearly unfounded and that they should never have been submitted for investigation in the first instance."

This was "conspicuously true of the list submitted by Congressman Dies," the attorney general said in his letter transmitting the lengthy report to congress. His reference was to a list of 1,100 persons sent to the justice department by the house committee on Un-American activities headed by Representative Dies (D-Tex.).

"My administration will reduce taxes."

Both parties discussed issues on which to base campaigns at meetings of platform workers yesterday. Final action will be taken Sept. 12 by the GOP in Pittsburgh and on Sept. 16 by the Democrats at Harrisburg.

Democratic platform sub-committees began preliminary work here on what Lawrence asserted would be "a liberal, fighting platform 100 per cent behind Roosevelt foreign and domestic programs."

A Republican platform committee chairman, who asked his name be withheld, said his group's final draft would be headed by a "win the war" plank and that tax reduction and economies of the James administration would be stressed.

Local Theatres Have Programs to Promote Sales of War Bonds

With a considerable amount of war savings bonds and stamps purchased at the Library and Columbia theatres, the total figures not completed today, however, Warren took part in last evening's nation-wide salute to the fighting forces and launching of the Treasury department's billion dollar bond and stamp drive in September.

Capacity crowds at both local theatres were realized and enthusiasm was high in the heart of every participant in last evening's tribute to the nation's fighting men.

H. R. McClure made brief speeches at both theaters on the value, necessity and satisfaction of buying war bonds and stamps as a gesture toward the soldiers and sailors that they have the wholehearted support in this war of those back home.

The V. F. W. band and flag bearers appeared on both theater stages while the V. F. W. Auxiliary, in uniform, and local Boy Scouts solicited sales from the audience.

The celebrations at the two theaters were climaxed with the presentation of the national anthem by the band, followed by three cheers for Warren county's fighting men, led by Mr. McClure.

Civic Groups Eligible For Sugar Supply

Civic, educational, charitable, benevolent, religious and social welfare organizations which serve meals infrequently are now eligible for sugar allotments under several conditions, the Warren County Rationing Board, announced today.

Previously these organizations were permitted sugar only if they served four meals a week.

The new order now makes sugar available for such functions as church suppers and bake sales, which earlier could not qualify for sugar allotments.

Conditions which must be met by these organizations to qualify for allotments are:

1. The meal service provides revenue for the organization.

2. The organizations are recognized in the community as permanent, or where newly organized, as likely to be permanent.

3. Meal service is consistent with the character and purpose of the organization.

4. Meals are available to non-members.

5. That such sugar will not be used in the preparation of alcoholic and non-alcoholic beverages, milk or milk drinks, ice cream, candy, cookies, crackers, popcorn, nuts and prepared soda fountain mixes.

The latter items, it was pointed out, may be served if they are purchased from an outside source but not prepared in connection with the meal.

GEORGE SPADE

Funeral services in memory of George Spade, will known resident of Warren R. D. 3, were held at 3:30 p. m. Tuesday at the Lutz Funeral Home. The rites were conducted by Rev. Bert Edquist, pastor of St. Paul's Lutheran church, who read the hymn, "Rock of Ages". Interment was made in Westview cemetery at Starbuck, with the following serving as bearers: Sherrill Zerbe, Leon Schuler, Merle Westcott, Frank Clark, William Geitner and William Gray.

Attending the services from out of town were Mr. and Mrs. Delbert Moore, of Fredonia, N. Y.

HELEN J. WONDERLING
Final rites were held at the Lutz Funeral Home at two o'clock Tuesday afternoon in memory of Miss Helen J. Wonderling, 17, of 818 Fourth avenue, who was almost instantly killed early Sunday morning in an automobile accident on the Hearts Content road. The services were very largely attended and a great many flowers bespoke the love and sympathy of relatives and friends.

She was a member of the First Evangelical church and her pastor, Rev. J. C. Wygant, conducted the services, reading the hymn, "Lead Kindly Light". Bearers for

interment in Oakland cemetery were Dorothy and Leatha Bealfield, Evelyn Anderson, Alice Slack, Doris Peters and Marion Reynolds.

Those who came from out of town were Mr. and Mrs. Kenneth Fagley, Mrs. Alice Whittell and daughter, Mr. and Mrs. Clyde Moore, New Kensington; Ralph Wonderling, R. R. Wonderling and family, Mrs. Merle Wonderling, Mrs. E. M. Carrier, Mrs. Ed Carrier, Mr. and Mrs. Willis (Wonderling) Summerville, Mr. and Mrs. T. J. Strangulation Causes Death Of Local Babe

John Edward Demel, infant son of Mr. and Mrs. Harold P. J. Demel, was found dead in his bed at the family home in a second floor apartment at 28 Buchanan street last evening about eight o'clock, when his mother returned from an errand to the first floor of the building.

A doctor was summoned immediately but upon arrival pronounced the child dead. Coroner Ed C. Lowrey, after investigating the tragic happening, today issued a certificate of accidental death from milk strangulation.

The baby, born on April 13 of this year, was an only child. Besides his parents, he leaves his paternal grandparents, Mr. and Mrs. Peter Demel, of Warren, and a maternal grandmother, Mrs. Ella Ross, of Lottsville.

Funeral services are to be held at nine o'clock Saturday morning at the Holy Redeemer church, with interment in St. Joseph's cemetery. Friends may call at the family home at any time.

DIES IN CANADA

Word has just been received here from Mrs. Lee Hunter, 26 South South street, that her mother, Mrs. Ramsay, died on Monday in Ottawa, Canada, and funeral services are being held there today. Mrs. Hunter left here last week to visit her mother, who was stricken with a heart attack soon after her daughter's arrival. She had visited in Warren frequently and had made many friends who will be sorry to learn of her passing.

CONVENTION ENDS

The annual convention of the State Association of County Commissioners, which closes today in Erie, received a suggestion to draft a comprehensive program of post-war readjustment now to avoid confusion when thousands are released from service and the war industry jobs. Commissioner Norman A. Peil of Northampton county, told the commissioners yesterday: "This past war burden will be tremendous and beyond anything the nation ever has had to face before. Therefore, it is but right that we should prepare now and the first problem is that of financing."

Honor Comes To Former Warren Man

It will interest many friends of Mr. and Mrs. George Betts, 9 North Irvine street, to read the following self-explanatory letter from the Department of State just received by their son, George C. Betts, Jr., who is now editor of the Daily Times at Martin's Ferry, O.:

My Dear Mr. Betts:

The department is in receipt of a communication from the Panamanian Embassy at Washington, stating that the Government of the Republic of Panama has selected two graduate students from the panel of five names submitted by this Government under the Convention for the Promotion of Inter-American Cultural Relations. I take pleasure in informing you that your name was selected as one of the two graduate students from the United States to receive this fellowship for the Panamanian academic year (May to February). The other appointee is Mr. Laurence LeSage, University of Oregon, Eugene, Oregon.

Let me congratulate you on your selection for this exchange with Panama. The Convention for the Promotion of Inter-American Cultural Relations is one of the important instruments in which the Government is interested for a more effective cultural interchange with the other American republics. As a fellowship holder you will be in a position to make a real contribution through this opportunity to become acquainted with the cultural life of Panama.

In accordance with the Convention for the Promotion of Inter-American Cultural Relations, this Government will defray your travel expenses to and from Panama. The expenses of maintenance incidentals and tuition at the institution of higher learning which may be selected will be borne by the Government of Panama. In the past, United States fellowship holders have received a monthly maintenance allowance of \$75.00.

Second Broadcast Of President at 12:30 on Thursday

BY C. E. BUTTERFIELD
New York, Sept. 2.—Wide World.—President Roosevelt's second broadcast this week, scheduled for all networks at 12:30 p. m. Thursday and directed to youth of the world, will be given as complete as possible global distribution. Besides direct short wave relays at the time he speaks and translations in Spanish and Portuguese, there will be delayed broadcasts beamed to Europe, South America and other parts of the world at later intervals, even extending into Friday. These will be in a dozen or more tongues.

GRANGE NOTES

DIAMOND-GRANGE
A class of 11 candidates was initiated in the third and fourth degrees at the Diamond Grange meeting at Tiona last evening. There were 30 members in attendance to complete plans for the exhibit at the Youngsville Fair, also to discuss the September salvage drive. Following the business session, the committee served refreshments.

TIMES TOPICS

WARNS MOTORISTS
Sheriff William Stuart today issued a warning to all motorists not to neglect copying serial numbers on all tires on their respective cars as a precautionary measure against possible theft. The sheriff added that his office has recently received a number of reports of stolen tires throughout the county, and expects many more due to the acute tire shortage. Stuart stated that unless serial numbers of stolen tires are known, it is practically useless to attempt tracing them down.

PLANS CELEBRATION

A mammoth Labor Day gathering that may reach 100,000 persons is envisaged by sponsors of the United Front Labor Day parade scheduled to be held in Meadville Sunday. The parade is part of a nation-wide celebration under the slogan "Free labor will win." More than 150 organizations will participate.

HELD IN ATTACK

The 29-year-old father of a ten-day-old baby is being held in jail at St. Marys after waiving a hearing on a charge of criminally attacking a 14-year-old girl. Police Chief William Goetz, who filed the charge against Jerome Wright, of Rich Valley, near Emporium, said the alleged attack occurred while Wright was going to visit his wife and daughter in the Kaul Memorial hospital at St. Marys. The alleged victim identified Wright as her assailant.

Fine Program For Fair In Farmington

Lander, Sept. 1.—At the final meeting of Farmington township fair directors, the group heard splendid reports of progress in plans for this annual community enterprise scheduled for Friday and Saturday of this week, September 4-5.

The committee for Friday night's amateur entertainment reported that Howard Fox will officiate as master of ceremonies and he stated that a good number of contestants had responded to compete for the worthwhile prizes. Two shows will begin at 7:00 and 9:00 p. m.

The prize committee reported good progress, also. Special instrumental music was promised for Saturday afternoon and it was stated the Grange will serve lunch on Friday and dinner on Saturday.

Three classes were announced as follows for the horse-pulling contest starting at 1:00 p. m. Saturday: Class A, under 3,000 pounds; Class B, between 3,000 and 3,400 pounds; Class C, over 3,400 pounds. Mothers are urged to avail themselves of the opportunities of the baby show and clinic planned for 1:30 p. m. Friday.

Chief Kropf Enrolled In Fire School

Fire Chief Douglas G. Kropf, of the local fire department, was among more than 300 firemen hard at work today as the fourth annual Pennsylvania Firemen's Training School reached the halfway mark on the Pennsylvania State College campus.

Nearly 100 towns and cities from 50 counties of the state were represented at the daily sessions as Arthur W. Espey, director of the Fire School, predicted that the week's study would yield a wealth of information which would assist Pennsylvania communities in "meeting the wartime fire problem." A large part of the week-long program is devoted to war-time fire hazards.

Dr. Hubley R. Owen, director of the Department of Health at Philadelphia, and Robert F. Hamm, assistant director of education, State Fire Marshal's Office, Indianapolis, Indiana, were the speakers at last night's assembly and added their voices to the chorus already raised on behalf of fire protection and fire prevention as essential to American progress in the war effort. Nationally-known experts have addressed these nightly meetings, and still others are scheduled for forthcoming sessions.

The outdoor demonstrations will be climaxed Friday afternoon by the arrival from Edgewood Arsenal of a unit of the United States Army Chemical Warfare Service. This unit will demonstrate the handling of phosphorus and other bombs utilized in modern warfare, and will bring to a close the various demonstrations especially designed for this school.

This year's school, fourth to be held at the College, is sponsored by the Fire School of the Public Service Institute, in cooperation with the State Department of Public Instruction and the extension services of the Pennsylvania State College. Successful enrollees will be presented with certificates at the close of the school on Saturday.

Youth Known Here Drowns In The West

Relatives in this section, including Mr. and Mrs. John Stevenson, of North Warren, who are cousins, have just received word of the death in late July of Corp. Arthur Fagan, with the United States Air Forces at Pendleton, Ore.

The young man was the son of Mr. and Mrs. James A. Fagan, of Robinson, Ill., former residents of both Clarendon and Grand Valley. His death was the result of a swimming accident at Twin Lakes, Idaho, about 200 miles from Pendleton, while he was on leave from the air field. An official investigation before and following recovery of the body from the lake waters revealed no cause of the happening, the young swimmer merely going down before help could reach him.

Following a requiem high mass in St. Elizabeth's church in Robinson, the American Legion Post conducted its full military ritual for the first soldier from Crawford county, Ill., to lose his life.

Nurse From Tidoute Back From Korea

According to a special dispatch from the board of foreign missions of the Presbyterian church, among the latest arrivals on the Gripsholm was Miss Edith G. Myers, R. N., formerly of Tidoute.

In 1932 Miss Myers went to Chosen, Korea, as a missionary under the board of foreign missions of this denomination. She has been on the staff of Union Christ Hospital in Pyengyang, serving as anesthetist and teacher in the nurses' training school.

For several months past she has been detained in custody of the Japanese authorities, awaiting her return to the United States on a repatriation ship. After her arrival in New York, she remained there for the conference of repatriated missionaries which the board held on August 31 and September 1.

THE STORY OF BREAD

may well be called The Story of Civilization

Bread, the most venerable of prepared foods, has helped man, and man in turn has bettered the quality of his staff of life.

YEAST is the life of bread... and the story of yeast is the story of scientific research, uniform quality, mammoth production, modern refrigeration... and daily delivery to bakers in every city, town and village throughout the land... even by boat, by sled and by plane when other transportation is interrupted by floods and blizzards.

Anheuser-Busch is one of America's biggest sources of baker's yeast.

Year after year, we have striven with research and resources to better the methods and facilities for brewing Budweiser. To do this, a laboratory specializing in fermentation and nutrition was necessary. Discoveries made in the laboratory and in the plant have led to the development of products contributing to human necessity and progress. Some of these products would appear to have only a remote relationship to brewing, yet, they are the result of scientific research into many allied fields.

Endless research in making the world's leading beer has led to other products

VITAMINS, B COMPLEX—For manufacturers of pharmaceutical and food products. Our plant is one of the world's largest sources.

VITAMIN D—Anheuser-Busch produces enough of the basic material for Vitamin D to supply the entire American market.

CORN SYRUP—many millions of pounds annually for America's candy industry.

SYRUPS—for food, table and confectionery uses and special syrups for medicinal purposes.

STARCH—for food, textile, paper and other industries—millions of pounds annually.

VITAMINS FOR LIVESTOCK—We are America's biggest supplier of yeast vitamins used to fortify animal feeds.

REFRIGERATING EQUIPMENT—for retailers of frozen foods and ice cream the country over. This division is now working all-out on glider wing and fuselage assemblies for our Armed Forces.

DIESEL ENGINES—Adolphus Busch, founder of Anheuser-Busch, acquired the first rights to manufacture this revolutionary engine in America and thus started our great Diesel industry on its way.

Conscies To Be Housed In C.C.C. Camp

L. K. Zeigler, director of the Civilian Public Service camp for conscientious objectors at Red Bridge, nine miles north of Kane, has revealed that the Church of the Brethren has advanced plans for utilizing CCC Camp No. 1 at Duhring, 16 miles southwest of Kane, for establishing a new unit.

Zeigler said the present camp, formerly a war veterans' CCC unit and the first CPS camp in Pennsylvania, is now near its quota. At the present there are 148 conscientious objectors at the camp which has a capacity rating of 150. As soon as need arises, it was indicated the CCC unit at Duhring would be converted for use in housing conscientious objectors. The men stationed near here, are engaged in work in the Allegheny National forest on projects designated of "national importance," working a 40-hour week on a no-pay basis. The men are required to furnish their own equipment and board.

Sponsoring church groups, known as the "peace churches," provide food and equipment for the men and maintain the housing facilities. Abandoned camps of the Civilian Conservation Corps are being used in this section. The camp at Red Bridge formerly was headquarters for the district which included 15 such camps. CCC unit established in the state and second in the nation. It was used as a model for setting up additional units.

In both cases, the conscientious objectors will continue the work started by the CCC including tree planting, forest road work and maintenance of the network of fire roads which have largely been responsible for the heavy drop in forest fire losses in recent years. The men also are available for forest fire fighting and other work in the forest under direct supervision of the U. S. Forest Service.

Up to the present, many of the conscies from the nearby camp

Private James A. Keller, who left Warren April 24 and was placed in the Air Corps Training School at Miami Beach, Fla., has now been transferred to the 362 School Squadron, Barracks 615 at Lowry Field, Colorado, for special training.

Friends here will read with much interest the following from a recent issue of the Fort Wayne Sentinel, Fort Wayne, Ind.: Maj. Paul B. Stewart reported for duty Field today. His home is Warren, Pa., where he has practiced since 1912 except for 19 months service in World War I as a surgeon. He was commissioned a first lieutenant in 1917, raised to captain in 1918 and to major in the reserves in 1925. This is his first assignment in World War II, having reported at Fort Hayes August 5. He is married and has two children.

FOR MISS MELLANDER
Last Friday evening, at the home of Mrs. John Dickinson, the Quaintance Class of the First Baptist church honored Miss Evelyn Mellander, bride-to-be of September 5, with a miscellaneous shower.

The time was pleasantly spent with games, prizes going to Mrs. George Spinney and Mrs. McPherson.

have been transferred to work in other areas. One group of 30 was taken to the West coast for work on an emergency project. Close to a score have been assigned to farms in New York state, where a labor shortage was reported. Zeigler said that about 20 more men will be sent to New York state farms in the near future.

What You Buy With WAR BONDS

American sailors and coast guardsmen must be hardened to face any and all weather. In ice, sleet, snow and rain they send their ships slashing through the heavy seas. They need rain coats to help them weather the storms. A raincoat for our sailors costs \$5.

You'll feel better if you know that by your investment in War Bonds and Stamps you are helping to give this protection for men who go to the sea in ships. Invest at least ten percent of your income in War Bonds every payday, for our Country must have the money to provide the necessary tools to win this war. And remember, for every \$3 you invest you get \$4 back at maturity. U. S. Treasury Department

BIG SHOW MAY BE ON

According to DeWitt MacKenzie, war analyst for Wide World and the Times-Mirror, Nazi Field Marshal Rommel's attack against the British in the Egyptian desert bears the earmarks of being the big show for which we've been waiting—an all-out German effort to make quick conquest of Egypt and the Suez Canal.

MacKenzie thinks the action is part of Hitler's grand strategy for overrunning the Caucasus and Middle East, placing wholesale dependence on this vast operation to win him the war.

Rommel's drive is inaugurated at the peak of the crisis in his master's battle in southwestern Russia. It comes at the critical moment when Stalingrad is in grave danger, and the Nazi chief is threatening to break through into the lower Caucasus.

Thus we have a classic example of Nazi coordination on a big scale. Actually Marshal Rommel's forces form the right flank of Hitler's Caucasian drive. The fuhrer's plan for this operation, which encompasses many countries, is this:

If Rommel can overrun Egypt, capturing the great naval base of Alexandria, Port Said and the canal, he will pretty well have nullified the effectiveness of the British fleet in the eastern Mediterranean. This will render the whole Middle East vulnerable to attack.

Meantime Hitler hopes to capture Stalingrad and crack the Red line which now bars him from a drive southward through the Caucasus to the northern border of the Middle East. Should he succeed, he and his henchman would be in position to make an assault from both east and west on the zone comprising Palestine, Syria, Iran and Iraq—a nutcracker movement.

And it's important to note that this latter phase of the plan could be carried out after winter had largely stopped fighting on the Russian front north of the Caucasus. The winter isn't severe in the southern Caucasus, and military operations both there and in the Middle East would be quite feasible.

With this background it's obvious that the Allies must stop both Rommel in Egypt and his boss in the northern Caucasus. It would be a catastrophe difficult to estimate if this Hitlerian scheme should succeed.

It's a dangerous moment for the Allies, but taking the position as a whole there's no reason to despair over our chances of dealing with it adequately, MacKenzie says.

THE TEACHER SITUATION

Announcement that the board of school directors elected nine new teachers for local positions at an adjourned meeting Monday evening emphasizes the fact that the officials were not only alert to the increasing scarcity of instructors, but were indeed fortunate in being successful in filling the vacancies.

Many counties in western Pennsylvania, including Warren, are facing an acute shortage of elementary teachers, according to Dr. Paul G. Chandler, president of the State Teachers College at Clarion.

The chief difficulty with this situation is that it is going to exist for many years, says Dr. Chandler, who predicts: "This shortage was here before the war. There are no indications that it will get better after the war. Like other shortages this one has been made greater by the war, but unlike other shortages it will not be relieved after the war unless more students enter teachers colleges and obtain certification. Districts that are now hiring temporary teachers may have to continue to do this for many years to come."

Many citizens who have benefitted through the training and influence of Miss Edith Langdale during the many years that she taught classes in the East street school, will be interested to learn that she has been granted retirement permission. She has the best wishes of a host of friends and admirers for health and happiness during her well-earned rest.

The movie sponsorship of the September Bond and Stamp drive got away to a fine start in Warren last evening. Both theatres were filled to capacity for programs arranged by the local chairman.

Wendell Willkie has arrived safely in Cairo, and the nation may breathe a sigh of relief over this interesting bit of news.

The fair season is here—things could be worse!

WASHINGTON IN WARTIME

By JACK STINNETT

WASHINGTON — The attention of the Capital has been called to the war effort of little College of William and Mary in historic old Williamsburg, Va., and Congress, civil service and the War and Navy departments are applauding.

The William and Mary war work plan, as reported by Rep. Schuyler Otis Bland, in whose district it is located, is briefly to provide that students may work three days a week in war industries and attend classes the other three days.

The plan provides a much-needed supply of first-class labor for war industry; it gives financial assistance to ambitious youngsters; and it helps the school keep enrollment at a time when nearly all colleges are suffering from the loss of men students.

THE students work in selected industries. During the summer months, some work full time. They earn about \$35 a week. They live in the college dormitories and pay around \$15 a week for room, board and laundry. Some students will have saved enough by fall to pay their tuition fees before they go on the three-day-a-week schedule.

Candidates must take both the college and civil service health examinations, must be at least 17 years of age, and be American citizens.

Students at William and Mary are working at the naval mine

depot at Yorktown, the Newport News shipbuilding yard, and on construction jobs at Fort Eustice. There is no academic distinction between war work students and others. The war workers naturally are unable to take as many courses as full-time students, but there is no limitation on their selection of subjects and by attending summer school they can be graduated in the regular four-year period.

An interesting factor is that the war work plan does not constitute in itself a basis for deferment from the draft, but students registered under the program are subject to the same deferment privileges as others working for college degrees.

The war work plan has been operating only a month and the college is not a large one. But it's pointed out here, the college's achievement cannot be measured in numbers. That is what is more important is that it has pointed the way.

MAN ABOUT MANHATTAN

By GEORGE TUCKER

NEW YORK — Rockland county, N. Y., is a sort of improbable never never land invented by Charlie MacArthur, the board of directors of an insane asylum, and a group of canny, though unrelated real estate dealers.

It occupies a stretch of Hudson river valley on the west side of the river about 30 miles above Manhattan. Artists, movie queens, executives, playwrights, and also some very ordinary people live there in red barns and in gorgeous homes hidden away in deep-foliaged dells. Its community centers are Nyack, New City, Pomona and Spring Valley.

In winter the snow buries the highway markings and you are in country as wild as it was during Revolutionary war times. At night the sky is immutable and the stars are hostile and cold. Helen Hayes lives there. Sherwood Anderson, the playwright, lives there, or did until he went into the Army. His home has now been rented to Faulette Goddard, who is "camping out" in Rockland county this summer, and thereby hangs a fact that has sold many a war bond for the U. S. treasury and sent many an ambitious housewife to a relief function that she ordinarily would have passed up.

EVERYONE knows that the exotically Miss Goddard has rented Meredith's place, but no

one has seen her. When a drive for the Chinese or the Russians or the British underway its backers now urge the county folk to come because they hear that Miss Goddard is sure to be there. Everybody goes because nobody wants to take a chance on missing out on the wonderful young woman with the dark tresses from Hollywood. If Miss Goddard can be persuaded to maintain her exclusiveness until the need for war relief drives has passed the treasury will have no need to worry. Her name, so far, has sent drive after drive over the top.

THE actors, artists, and writers of Rockland county have turned into airplane spotters, motor corps captains, and Red Cross workers. Charles MacArthur and Ben Hecht live there and the heavy shouldered but amiable Sherwood Anderson has been a great help in the local war effort, lending his own binoculars to comrades airplane spotters from the tower and sharing the lonely midnight vigils. They all take turns spotting planes and reporting same to the defense command along the seaboard.

Rockland county is a land of gorgeous lakes and is a wild life preserve. If you can get permission to fish the waters, you are certain to be rewarded with the limit of the law. Sometimes the permission is hard to get.

Chinese Battle Japs for Air Bases

Seeking to wrest back important air bases like Lishui and Chuhsien, Chinese forces have driven back the Japs in the Chekiang province area and at other points of fighting between Shanghai and Canton. Bottom map, giving relation of this battle zone to all of China, shows how U. S. planes could bomb Tokyo from the Chekiang bases.

Officials Outline Plans For Reopening of Schools Tuesday

Principal Floyd W. Bathurst, of the high school, today announced the opening of the new school year on Tuesday, September 8, at 8:35 a. m., and included in his announcement several suggestions and instructions for high school pupils this semester.

All pupils who finished the ninth, tenth and eleventh grades in Warren last year are now registered, also those pupils who finished ninth, tenth or eleventh grade in Kinross and have indicated an intention of coming to Warren High School are registered, Bathurst stated.

Among instructions which the local principal included in his announcement was one in which he emphasized the fact that pupils who left the high school before the end of the semester last year and now wish to return to school must register in the principal's office before noon on Saturday of this week. Pupils who wish to transfer from other high schools must also register before that time, and he

suggested that they bring a record of high school work completed.

It will not be possible to register any pupils on the first day of school.

In order to make the first day easier for all students to acquaint themselves with the school building and to find their home rooms, Principal Bathurst stated that pupils will be seated as follows:

Those with 22 or more credits are seniors and are placed in home rooms 202, 203, 204, 208, 213, 216 and 217.

Those with from 15 to 21 credits are juniors and are in rooms 105, 110, 111, 201, 206, 210, 211, 212 and 218.

Those with fewer than 14 credits are sophomores and are in rooms 108, 109, 113, 114 and 12.

Rooms numbered in the two hundreds are on the second floor; those in the one hundreds are on the first floor; those numbered less than one hundred are in the basement.

Screen Stars Join Billion-Dollar Bond and Stamp Drive

As just one phase of the Motion Picture Industry's bid to raise at least one billion dollars in bonds and stamps during the month of September, forty to sixty top-flight screen stars will desert Hollywood in that month to take part in the most extensive "star-tour" itinerary ever attempted in show business.

These film stars, many of whom will be leaving actual production schedules to do their part, will go out in six or seven routes covering the entire United States. They will travel singly and in units and it has been estimated that they will cover in actual mileage over 22,000 miles. More than 300 cities will be visited . . . both large and small . . . and wherever the Treasury Department feels they are needed. But no matter where they go, they will appear at rallies, civic luncheons, in stadiums, parks and at factories to sell bonds and stamps and to promote the payroll deduction plan. Scores of small communities will be star-dusted, as well as large metropolitan centers. Millions of moviegoers—potential bond and stamp buyers—will get their first "in person" view of a screen celebrity. But these stars will not be appearing as celebrities, nor as stars of any particular picture. They will not and cannot be commercialized. They are traveling to do a job . . . not to show themselves . . . and that job is to sell as many bonds as is humanly possible.

Prominent Speakers On Y. M. Forum

Announcement of the Y. M. C. A. lecture forum series for 1942-43 has been made by R. W. Mackay, chairman of the committee in charge of this educational feature, to which the community has come to look forward each year with keen anticipation.

The featured speakers for the coming series are James R. Young, for thirteen years director of the International News Service Bureau in the Orient with headquarters in Tokyo; William Hazlett Upson, well known author whose Saturday Evening Post stories are read by millions; Margaret Bourke White, one of the world's greatest photographers; and Jan Valtin, author of "Out of the Night" and one of the most discussed figures in America.

Dates for the lectures are December 17, January 21, February 15 and March 4. Although topics have been tentatively selected, these will be revised nearer the dates of the lectures in order to make them as up to the minute as possible.

In making this outstanding group of speakers available to Warren audiences the Y. M. C. A. is continuing a service to the community which is recognized and appreciated by all who seize the best in cultural and educational opportunities.

Among the speakers of the Y. M. C. A. Forum in past years are Major George Fielding Elliot, Rene Dussaq, H. R. Knickerbocker, Boake Carter, Will Durant, Capt. John D. Craig, J. C. Monteith, Vicki Baum, Channing Pollock, Upton Close, Dr. Chas. C. Batchelder, Reinhold Weranath, Rose Quong, Sidney Montague and others.

Three Fined As Violators Of Blackout

With the prosecution today of three blackout violators before Justice of the Peace T. Richard Evans came a stern warning to all citizens in the county that in future blackout tests they must not leave any lights unattended in their homes or business establishments, or addition prosecution will take place.

Albert E. Ristau, Reliable Furniture Store, Pennsylvania avenue, east; Fred Greenwald, 119 Oak street, and Chris L. Peterson, 214 Madison avenue, were heard in an arraignment before Justice Evans on charges made during the last blackout trial by air raid wardens.

As reported, lights were left burning in the Reliable Furniture Store without an attendant, and with no possible way for extinguishing them, while the remaining two violations occurred at the homes of the violators.

It was the second offense charged against Peterson, according to a report by Sheriff William Staunt, while Greenwald was prosecuted for failure to heed an air raid warden's warning to turn out the lights in his home.

Greenwald and Peterson pleaded guilty as charged, Ristau demanded a hearing, at which he was found guilty as charged, and all were ordered to pay fines of \$10 apiece, and costs.

Reds Claim Soviet Lines are Holding

tacking in the Mozdok and Prokh-ladnaya areas.
Further clashes south of Voronezh were reported by Izvestia which said the Germans were beaten off on an attempt to take a large settlement on the west bank of the Don.

The German left knifed deep into northwestern defenses of Stalingrad also yesterday, but the invaders abandoned 24 dead and were treated to their original positions under pressure of counter-attacking Russians, the Soviet information bureau said.

A company of Italians was declared wiped out by Red army patrols in the Ketskaya area of the Don bend.

Several more settlements were reported added to the hundreds captured in the Russian central front offensive and the information bureau said "our artillery inflicts heavy losses on the enemy."

Red army men, marines and factory hands posted on the steppes northwest of Stalingrad and Soviet task forces harrying the Axis flank within the Don bend were reported to have slain 600 Germans and knocked 15 tanks out of action in defensive engagements.

The Moscow radio said the Russians had regained a Cossack village on the right bank of the Don and were "grinding down" the foe.

The Soviet information bureau said no material changes took place on other fronts yesterday, but disclosed a further Russian withdrawal in the western Caucasus below Krasnodar under the pressure of numerically superior German detachments.

Perhaps referring to Black Sea fighting correlated with this action, the information bureau said Soviet airmen had sunk three Axis patrol launches Monday.

Brakeman is Killed Under Freight Here

Stafford between the trains and tried to warn him of his danger, but he was struck before they could attract his attention. There were 82 loaded cars on the train which struck the brakeman.

When trainmen reached him they found that he had been practically decapitated. The body lay about fifty feet from where his cap was found, apparently indicating the point where he was first struck.

The engineer on the train on which the ill-fated man was working was F. H. Miller, and the fireman, T. E. Chuck, both of Erie.

Mr. Stafford is survived by his widow and two sons, one aged 6 and the other 16. The body was prepared for burial at the Lutz funeral home and will be sent this evening to the Brugger funeral home in Erie. Plans for the services have not been learned.

Step Up Milk For Health
Fondue, escalloped dishes and creamy desserts insure a good milk supply in daily meals.

Meatless Dinner
(Serving 4)
Dutch Salad
Bradford Cheese Fondue
Apricot Cream Dessert

Dutch Salad
2 cups sliced cucumbers
1 cup thinly sliced onion
1 teaspoon salt
1 cup thick sour cream

Mix cucumbers, onion and salt and chill 30 minutes. Drain and cover with rest of ingredients.

Bradford Cheese Fondue
(Meatless)
4 beaten eggs
1 cup milk
1/2 cup butter
1/2 cup cheese
1/2 cup onion
1/2 cup carrot
1/2 cup celery
1/2 cup tomato
1/2 cup mushroom
1/2 cup green pepper
1/2 cup white beans

Mix yolks, milk and bread. After 5 minutes, stir and add seasonings, beans, cheese, chili sauce, parsley and butter. Fold in whites and pour into buttered baking dish. Bake 30 minutes in moderately slow oven (325). Serve warm with tomato or asparagus sauce, or alone.

Apricot Cream Dessert
1 egg
1/2 cup sugar
1/2 cup flour
1/2 cup milk
1/2 cup apricot
1/2 cup milk
1/2 cup milk

LIBERTY LIMERICKS

Said a housewife named Mrs. I. Budget,
"We're 'scrimping,' but I don't begrudge it,
For by saving up more
We'll help win the war—
At least, that's the way I should judge it."

Every dime or dollar you put into War Stamps and Bonds is a blow at Nazi home wreckers! Help your country raise its quota!

A DIME YOU'LL NEVER MISS MAY SAVE A SOLDIER'S LIFE!

It's a fact that a single 10-cent piece can be the means of saving a soldier's life—because the five cartridges it buys can make the difference between victory and defeat for one of our boys. Think then what more money will do, if put regularly into U. S. War Savings Stamps! Order them delivered to your home, week after week, by your newspaper carrier boy. This coupon, filled in, will be all the authorization he needs. Hand it to him next time he stops!

I would like to have 10-cent War Savings Stamps delivered to my home each week until further notice.

Penny Wise says...

"A Little Care—Money To Spare"

Fit the pan to the can! Don't pour contents of a small can into a big pan for heating. You waste fuel—since the area to heat is larger—and, besides, you add to your own dishwashing time.

The smallest economies are important these days when Uncle Sam needs money. Ten percent of your household budget each week should go toward War Bonds.
